Financial Literacy for Kids

Module 3 Study Guide

Needs vs Wants

This guide covers every lesson of the module, using only words and figures from the lessons themselves. Work through it after watching the lessons, then use the checklist at the end to test yourself.

Lesson 1: Needs Keep Us Going, Wants Make Us Smile

In this lesson: Spot the needs; Spot the wants; Choose the order.

Key points

- Identify needs
- Identify wants
- Do needs before wants

Examples from the lesson

- This lesson teaches its ideas through the story — see the key points above.

Hero mission (try it with a parent)

Tonight, with a parent, pick three things at home. Put them into a “Need” pile and a “Want” pile. Talk about why each belongs there.

Lesson 2: The Supermarket Quest

In this lesson: Identify needs vs wants; Spot shop tricks; Stick to the list.

Key points

- Identify needs vs wants
- Spot shop tricks
- Stick to the list

Examples from the lesson

- This lesson teaches its ideas through the story — see the key points above.

Hero mission (try it with a parent)

With a grown-up, go to a shop or market, pick one thing you need and one thing you want, and tell them why each is on your list or not. Have fun spotting the tricks!

Lesson 3: Choose Your Treasure

In this lesson: Compare prices; Ask need or want; Choose your treasure.

Key points

- Look at price tags
- Ask need or want
- Choose your treasure on purpose

Examples from the lesson

- Kai says, 'First, we look at the price tags.' We point to a mango that costs two coins and a toy car that costs five coins.
- The toy car is fun, but we already have one at home, so it is a want.
- Kai reminds us, 'You can only spend what you have in your pocket.' We count our coins: we have four coins.
- We cannot buy both the mango and the toy car because together they cost seven coins.
- Later, we take a maxi to the park and see a stall selling stickers. One sticker costs one coin. We already have a sticker book, so it is a want.
- Kai smiles and says, 'Every smart choice makes you a stronger hero.' Kai also shows us how to compare two similar things.
- He points to a plate of doubles that costs three coins and a banana that costs one coin.
- Then we walk past a stall with bright balls that cost four coins each.
- Now it's your turn: with a parent, look at something you want to buy, check the price, ask if you need it or want it, and choose one thing to buy or save for later.

Recap checklist — can you say each one?

Lesson 1: Needs Keep Us Going, Wants Make Us Smile

- ☐ Identify needs
- ☐ Identify wants
- ☐ Do needs before wants

Lesson 2: The Supermarket Quest

- ☐ Identify needs vs wants
- ☐ Spot shop tricks
- ☐ Stick to the list

Lesson 3: Choose Your Treasure

- ☐ Look at price tags
- ☐ Ask need or want
- ☐ Choose your treasure on purpose
